Memorandum of Understanding for a Pilot Partnership

Generic version for partners. This is the wording under which a pilot partnership is run with a partner who wants their event listed on PairMee. The details in square brackets are completed with each partner before signing. English translation of the Hebrew original; where the two differ, the Hebrew version governs.

Updated: 6 September 2026

> The pilot is entirely free, for the partner and for end users alike. Nothing in this document is a financial commitment by either party.

1. The parties

1.1. **PairMee**, a technology platform operating a matching layer between travelers for the purpose of sharing rides to events. **PairMee is not a registered corporation.** It is operated by, and wholly and exclusively owned by, an operator whose details appear at the signature line (**"the Operator"**), and PairMee's undertakings under this document are his undertakings.

1.2. [Full partner name], [description or venue of the event, if any] (**"the Partner"**).

1.3. The Operator is in the process of registering a company that will operate PairMee. Upon its registration, the Operator may **assign his rights and obligations under this document to it**, by written notice to the Partner. Until such assignment, the obligations under this document are the Operator's personal obligations.

2. Background

2.1. PairMee operates a platform that lets travelers heading to the same event find each other and coordinate sharing a private car or a taxi between themselves.

2.2. The Partner wishes to examine whether the platform can help attendees of its event find a shared way to get there, **as a free pilot with no commitment**, ahead of the event taking place between [event dates].

2.3. The parties hereby wish to set out the principles of their cooperation for the pilot period.

3. Nature of the cooperation

3.1. PairMee will provide the Partner with a dedicated link for the event on the PairMee platform, to which the event's ticket holders will be directed.

3.2. Use of the platform will be **entirely free of charge**, for end users and for the Partner alike, throughout the pilot period.

3.3. **All costs of operating, developing and maintaining the platform are borne by PairMee alone.** The Partner will not be required to bear any financial cost in connection with the cooperation described in this document.

4. Roles of the parties

4.1. As part of the cooperation, **the Partner will distribute the link to the platform** through the communication channels it operates with the event's ticket holders (including the purchase confirmation email and social media), in the channels and at the timing agreed between the parties.

4.2. The Partner will give PairMee honest feedback on the users' experience, during the event and after it.

4.3. PairMee will provide ongoing support for the platform throughout the pilot period, and will make reasonable efforts to handle faults discovered during it.

4.4. It is hereby agreed that distribution of the link by the Partner **does not constitute** an endorsement, recommendation or guarantee on the Partner's part as to the safety of the ride, the identity of the users, or the results of using the platform.

5. Ownership and intellectual property

5.1. The platform, including the code, the brand, the name **"PairMee"**, the design, the databases, and the associated intellectual property in all its components, is **wholly and exclusively owned by the founder**. The Partner will have no right, ownership or share in them as a result of this cooperation.

5.2. It is agreed that **the Partner will have no future claim to ownership, to a right of commercial use, to royalties, to consideration, or to any compensation whatsoever**, by virtue of its contribution, its participation in the pilot, or its distribution of the platform to its audience, including where the cooperation contributes to PairMee's success, growth, or increase in its number of users.

5.3. Public use of the Partner's name, the event's name, its logo or its trademarks, as well as publication of the pilot's results, **require the Partner's prior written approval**. PairMee will not present the cooperation as though it carries the Partner's endorsement or recommendation as to the platform's safety or quality. **PairMee may make internal use of the lessons and aggregate data from the pilot**, provided they do not identify the Partner, the event, or any user.

6. Liability

6.1. PairMee is solely responsible for the operation of its platform, and for its compliance with the public terms of use published on it.

6.2. PairMee is not a transport operator, does not employ drivers, and does not collect or broker any payment for the ride between users.

6.3. Responsibility for the interaction between the platform's users, including the ride itself, **rests with the users alone**, and not with either party to this document.

6.4. Neither the distribution of the link by the Partner, nor the cooperation described in this document, **imposes any liability on the Partner, directly or indirectly**, for any act or omission of the platform's users.

7. Validity and term

7.1. This document is in force from the date of its signing until the end of the pilot period, shortly after the conclusion of the [event name] event.

7.2. At the end of the pilot period the parties will discuss their impressions of the cooperation, and their wish (or lack of wish) to continue in any form.

8. General provision

8.1. This document reflects the understandings between the parties regarding the pilot described in it only, as of the date of its signing.

9. Signatures

9.1. Bar Ziv Neuman, operator of PairMee. Signature: _____ Date: _____

9.2. Representative of [partner name]. Signature: _____ Date: _____

> This document is drafted for a pilot of limited scope. Should the cooperation expand beyond the pilot, including any financial involvement or multi-year commitment, it is recommended that the agreement be reviewed by a lawyer before signing.

10. Open variables

10.1. The following details are completed with each partner before signing, and are not set in advance: the full partner name, the venue or description of the event, the event dates, and the event name.

10.2. **No commercial structure has been set.** As of this date PairMee charges no one, neither end users nor partners. Should a commercial structure be set in the future, it will be set in a separate written agreement, and not by virtue of this document.
